MOBILE FIRE PROTECTION STATION

Safety Station 360°

PRODUCT

- ▶ The Safety Station 360° mobile fire protection station is designed to provide flexible first aid and firefighting equipment.
- ▶ The station is equipped with all essential safety components. It comes with two fixed wall brackets to hold fire extinguishers, theft protection for the fire extinguishers, a manually triggered alarm device and siren, an F005 fire alarm call point sign, an eye rinsing unit, a first-aid case as well as illustrated instructions for firefighting. All of the above-mentioned components - except for the wall brackets and theft protection mechanisms - are magnetically attached and allow for flexible positioning. Two fire extinguishers are available optionally. An F001 fire extinguisher flag sign ensures good visibility and fast access to the station in an emergency.

APPLICATION

- ▶ The Safety Station 360° was designed for applications that require quick operational readiness and variable application options.
- ▶ Typical areas of use:
 - Construction sites
 - Events and industrial fairs
 - Production halls and warehouses
 - Agriculture
 - Public spaces and parks
 - Shipyards and port facilities

YOUR ADVANTAGES

- ▶ Extensive mobility: Permanently installed wheels and practical handles facilitate quick transport, even on uneven terrain, without requiring any additional transport means.
- ▶ Central availability of firefighting and first-aid equipment.
- ▶ Made of robust, powder-coated steel and therefore resistant to impact, scratching, and corrosion.
- ▶ Excellent visibility even in complex, unstructured environments or expansive areas.
- ▶ The fire extinguishers are protected against unauthorized removal due to a theft protection mechanism.
- ▶ Magnetic safety components allow for easy, tool-free adjustment and rearrangement.

ASSEMBLY

Unpacking the fire protection station: The wall brackets of the fire extinguishers and the alarm triggers of the theft protection are already upon delivery.

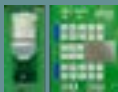

Fit the two station parts into each other and then attach the fire extinguishing flag sign.

Attach the magnetic components, then hook the fire extinguishers in place. In the next step, guide the theft protection around the fittings of the fire extinguishers and fit it into the alarm trigger.

COMPONENTS

-  ▶ First-aid case Mini: magnetic, 260 x 170 x 110 mm (W x H x D)
-  ▶ The proper way to extinguish a fire is illustrated in the flap frame: Aluminum frame, see-through pane made of plastic 210 x 297 mm
-  ▶ Eye rinsing unit, magnetic, with a 500 ml container of eye rinsing solution for use in the case of chemical burns and dirt, including a mirror and pictograms
-  ▶ Alarm device on top: magnetic, manually triggered alarm device with siren, 160 x 260 x 75 mm (W x H x D), Volume: 100 dB at a distance of 1 m (+/- 5 dB)
-  ▶ screw-on theft protection mechanisms, 136 x 136 x 50 mm (W x H x D), 95/105 dB warning alarm when activated
-  ▶ F005 Fire alarm call point sign: magnetic, glow-in-the-dark, made of plastic, 150 x 150 mm
-  ▶ F001 Fire extinguisher flag sign: detachable, made of aluminum, 200 x 200 mm

TECHNICAL DATA

| Model | Material | Color | Dimensions | | | Weight (without components and fire extinguishers) |
|------------------------------------|---------------------|---------------------|----------------|--------------------------------------|----------------|--|
| | | | Width | Total height | Depth | |
| Safety Station 360° | Powder-coated steel | Flame red, RAL 3000 | approx. 750 mm | approx. 1910 mm + 400 mm safety sign | approx. 686 mm | approx. 51,5 kg |
| Subject to technical modifications | | | | | | |
